DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 4, 5, 8-13 and 16-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over US 6,164,494 to Marelli in view of US 3,655,952 to Johnson et al.

Marelli shows a liquid dosing dispenser with a device for counting dispensing doses, as seen in Figs. 1, having a fixed ratchet member 11, a trigger member 5 arranged to undergo reciprocal movement for actuation of the device, a counter 16 in the form of a ring arranged to undergo a counting movement and having a first region 18 for interaction with the trigger member and a second region 19 with multiple incline sections and teeth as seen in Figs. 5 and 6, a second counting ring 21 and an aerosol container 3 with a ferrule 4 for connecting the container to the counting device.

In reference to claims 10 and 11, the trigger has to be fully depressed for the counting ring to undergo rotation and to result in the device counting the actuation, see Figs. 5 and 6.

Marelli lacks the counter member in the form of a ring with teeth. Johnson shows a liquid dosing dispenser as seen in Figs. 1 and 2, with a counter member 28 in the form of a ring with teeth 28. It would have been obvious to a person with ordinary skill in the art at the time the invention was made to substitute the counter ring of the device of Marelli with a toothed

counting ring to simplify and minimizing the number of elements for greater assurance that the member 28 will move as desired as taught by Johnson.

Response to Arguments

3. Applicant's arguments with respect to claims 1, 4, 5, 8-13 and 16-18 have been considered but are moot in view of the new ground(s) of rejection.
